Great customer service and quality materials. the bamboo chadding provided the perfect balance of modern design and natural character.

Client Nikylla

Thank you, Modern Bamboo, for the fantastic job in my apartment! I truly appreciate your professional approach and look forward to using your company for our future renovations.

Ballet Conservatoire

WHAT OUR CLIENTS SAY

Real Words, Real Impact

Very good and superb service! Sobrang effort ang binigay, they even went beyond their job description to assist and find a perfect accessory for my purchase. SUPER RECOMMENDED!

Engr. Regala

The service here is outstanding! The staff provided attentive and professional service. The product I purchased is top quality and worth every cent. Definitely a store I'll recommend and return to.

Client Grace

Outstanding Quality and Service!
I recently purchased cladding for a renovation project, and I couldn't be happier with the results

Hanay Enterprises

Zenwood has a great customer service in terms of giving sufficient informations for inquiries and good communication. Good quality and a good service is highly conduct.

Client Ilag

ZenWood offers reliable and eco-friendly surface solutions. The team demonstrated expertise, professionalism, and a genuine commitment to customer satisfaction throughout the project.

Client Cassandra

Ganda ng product (curved fluted panel). Mukang matibay as well. Easy to transact din si Ms. Laura. She helped me a bunch from before to after sales. 1000000000 Recommended!

Client Roberto

10 star also for Ms.Laura
Friendly and approachable . Napaka helpful mag assist 😊 thank you. Pasay showroom.

Client Luisa

The bamboo flooring looks amazing and feels durable. Great quality materials and professional service from start to finish.

Client Jo-anne

Client Testimonial

Modern Bamboo is one of the Best Suppliers I worked with, as an Architect, very important samin ang quality, stability ng product and at the same time ang after sales service ng tao, like Ms. Tere of Modern Bamboo and Zenwood. From start we inquired to her, fom discussions, ready sya sa items list needed at very patience nya kami inentertain, evwn late na kami dumating sa store nila at MC home depot in Ortigas. Wala kaming naging problem sa kanya and her company, and the time of delivery until our ongoing installation, she and her company really gave the exta miles we needed. So, if your looking for a quality wall cladding treatment, materials for wall, and want to upgrade your simple boring wall to turned into a talk of the town and cneter of attraction ng interior and houses nyo, I highly and definitely recommnend 100% Modern Bamboo and Zenwood also Ms. Tere for all your transactions. As an Architect, all thumbs including my toes to you.:-)

Ar. Miranda

CLIENT TESTIMONIAL

I purchased my SPC flooring and bamboo fiberboard panels from Zenwood Phil. through Ma'am Chona, who provided excellent assistance throughout the entire process. She helped me select exactly what I needed for the renovation of my condo unit, replacing the old ceramic tiles with SPC flooring.

The outcome of the upgrade made my home feel much more warm and inviting, and the quality of the materials is truly elegant. The bamboo fiberboard panels look clean, modern, and instantly improved the overall appearance of my space.

Chona was very supportive and ensured that the delivery was arranged on time, which was especially important because I had a very limited timeframe in Manila. She was also quick to respond to all my inquiries—from delivery updates to after-sales support.

Overall, I am very happy with both the products and the excellent service. I highly recommend ZENWOOD PHIL. and especially Ma'am Chona for anyone looking for quality materials and reliable customer service.

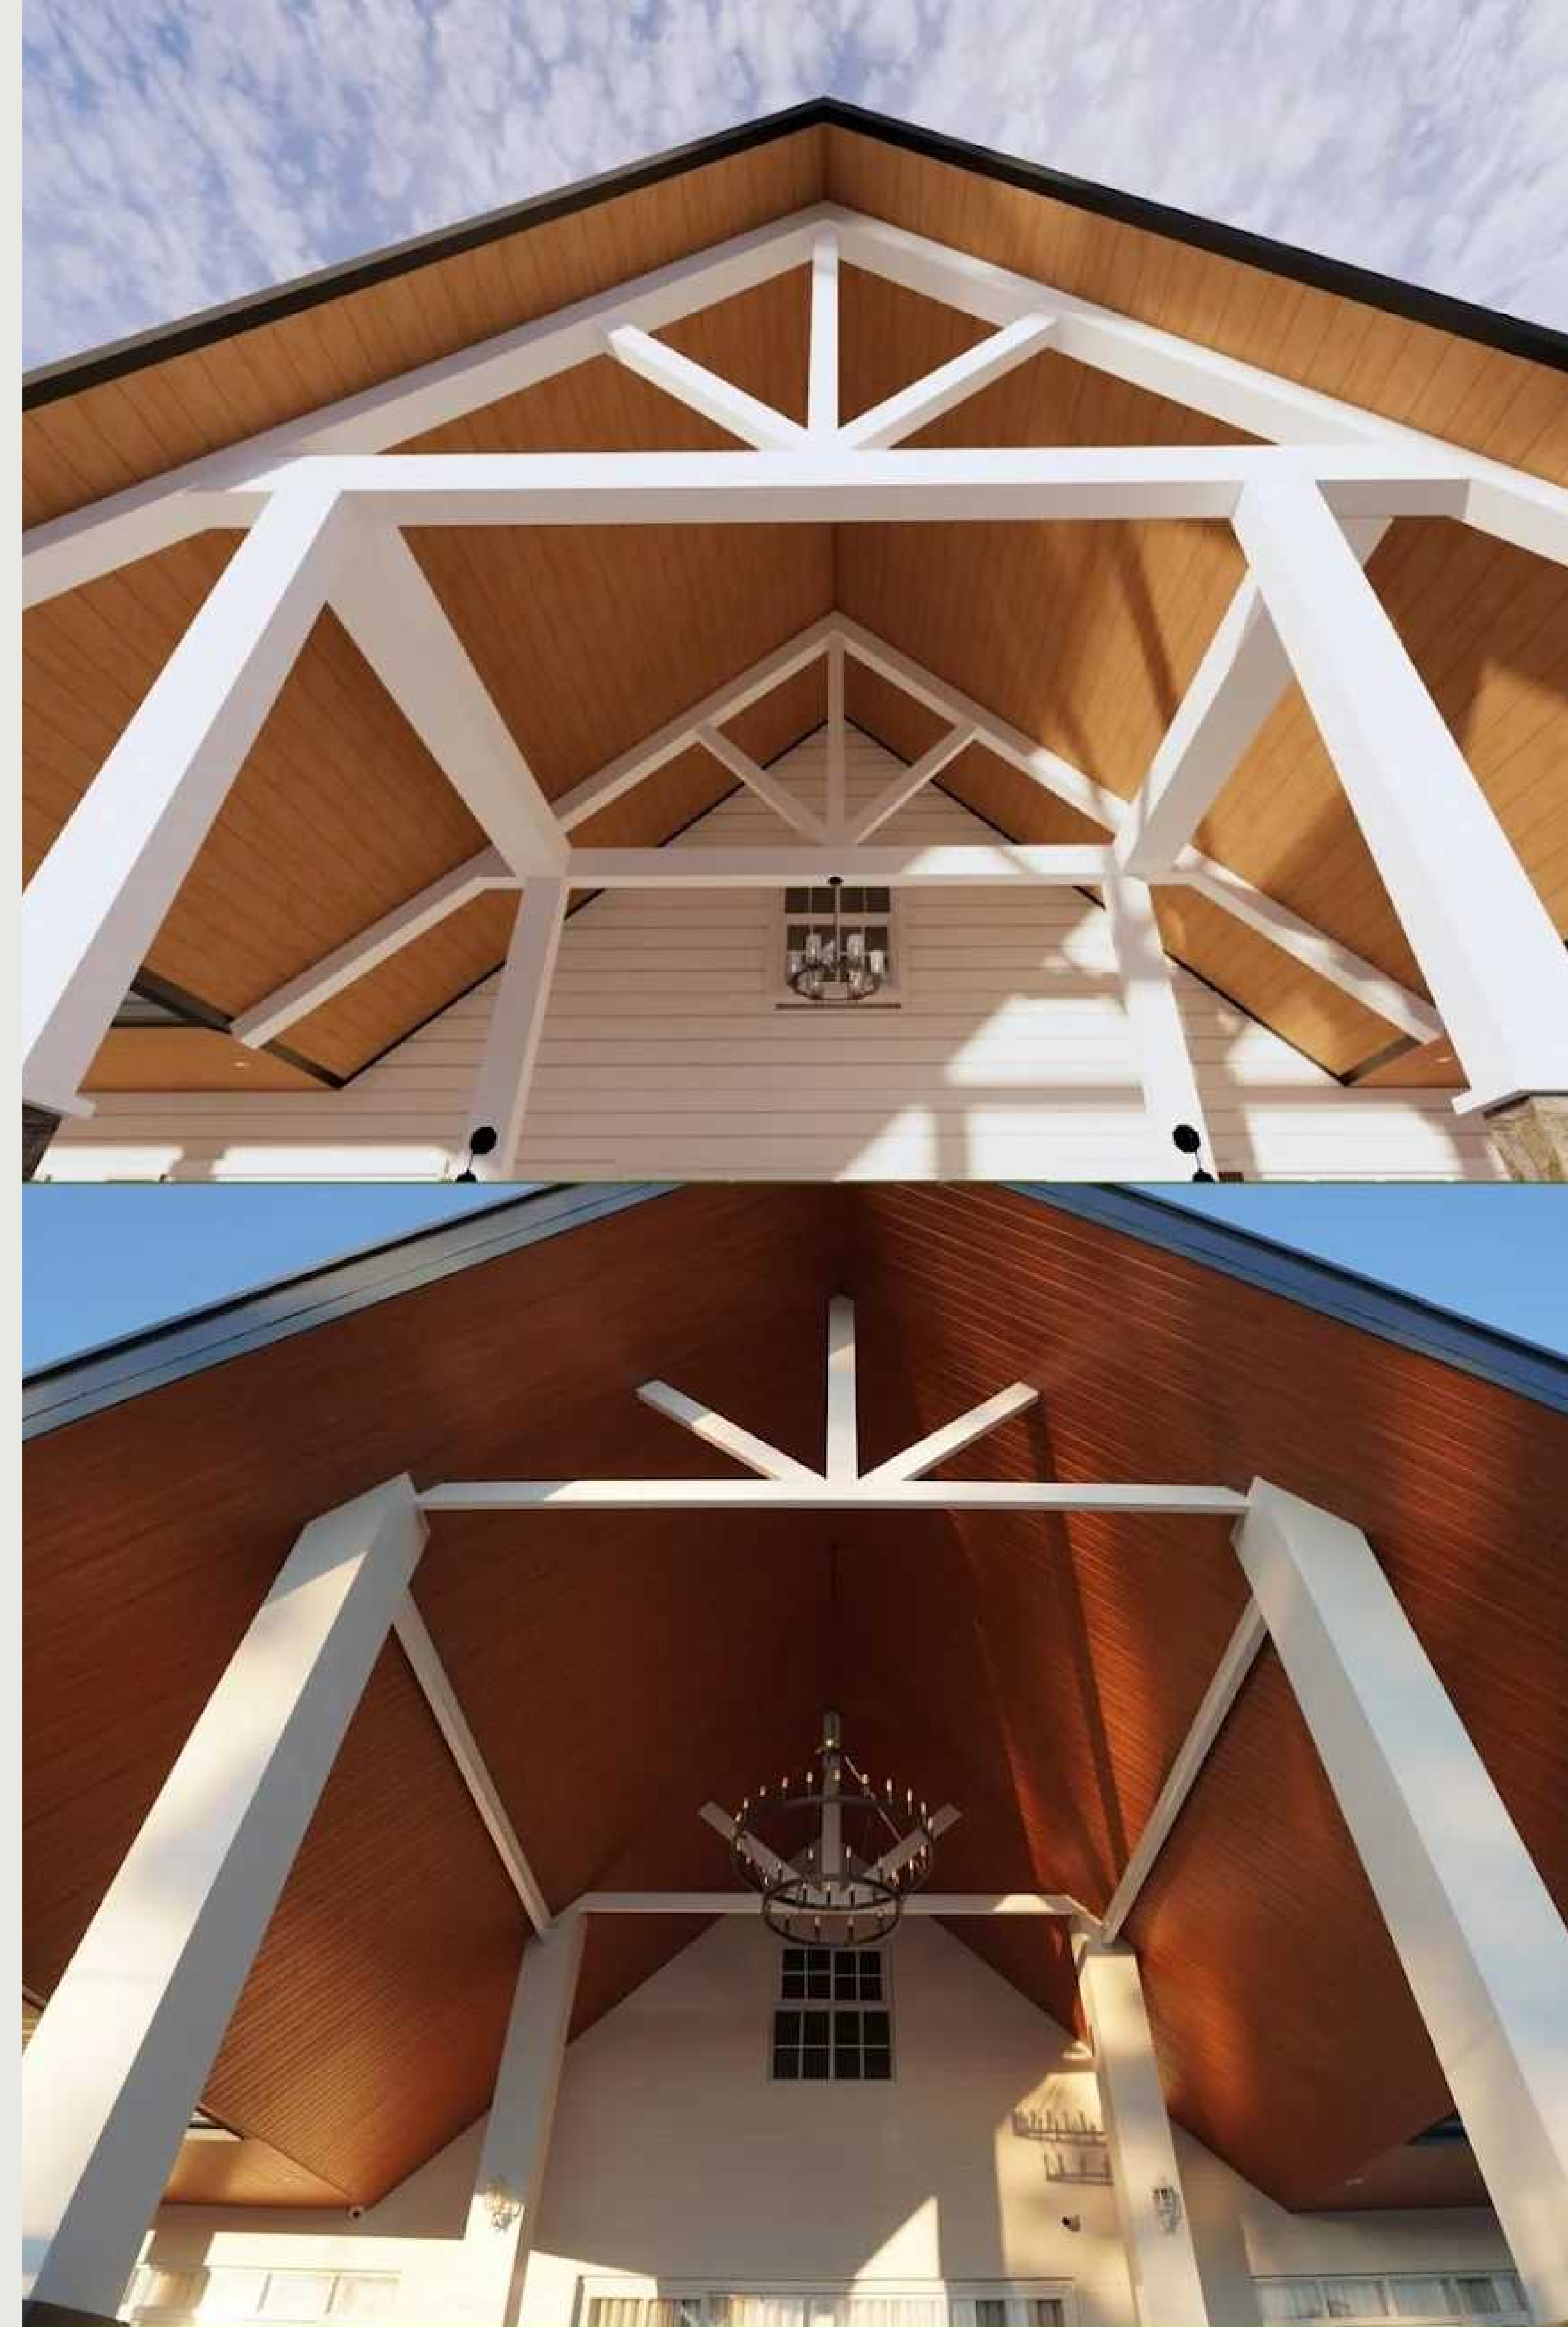

MR. GONZALES
CLIENT

Client Testimonial

I highly recommend Modern Bamboo for their excellent service, outstanding workmanship, and professional approach to every project. Their team is very accommodating, reliable, and dedicated to delivering high-quality and modern designs. If you are looking for a trustworthy company for construction and design services, Modern Bamboo is definitely highly recommended!

Allon Architects

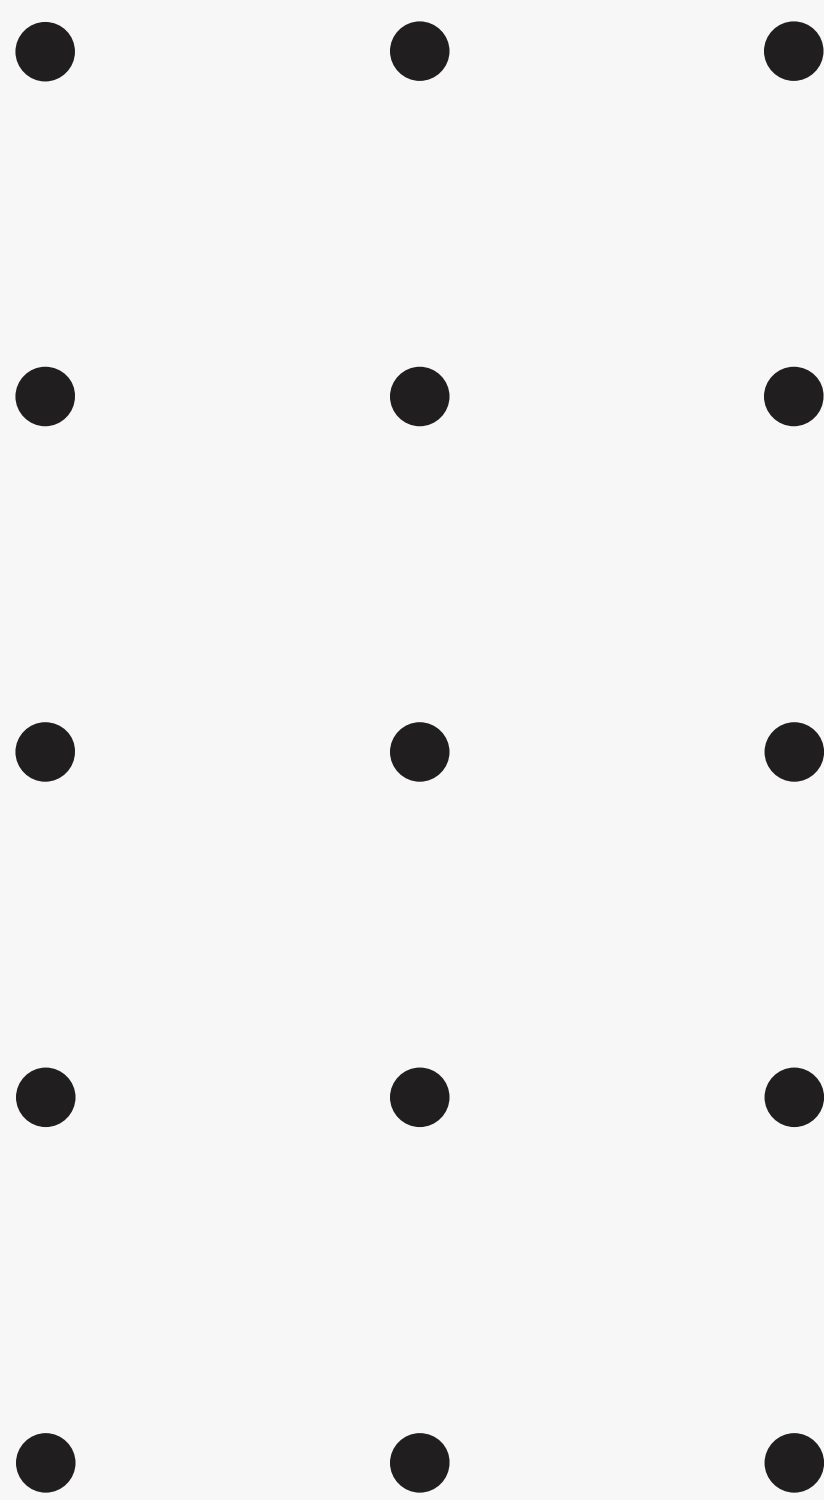

CLIENT TESTIMONIAL

I'm very pleased with Zenwood Panels. The panels have a premium wood-like appearance, are easy to install, and instantly enhance any space. They are durable, low-maintenance, and offer great value for money. Ms. Levy was also very accommodating and responsive throughout the process, making the experience smooth and hassle-free. Highly recommended!

Modern Bamboo®

is the leading supplier of high-quality bamboo products in the Philippines. With a focus on sustainability and eco-friendliness, we specialize in providing solid bamboo flooring, cladding, decking, veneer, and other bamboo products for both residential and commercial applications.

The background of the entire image consists of several light-colored bamboo planks arranged diagonally, creating a textured, natural aesthetic. The planks are positioned in the top-right and bottom-left corners, framing the central text area.

At **Modern Bamboo®**
we understand that each project is unique,
and we work closely with our customers to
provide tailored solutions that meet their
needs. We offer a wide selection of bamboo
products that can be customized to fit any
design or aesthetic.

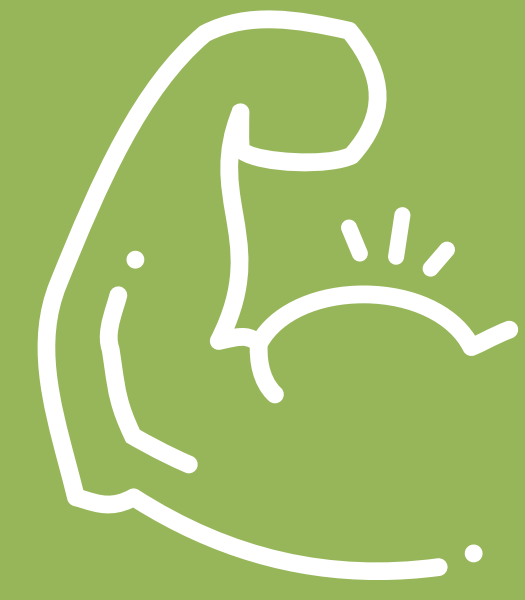

We are dedicated to providing high-quality bamboo products that are not only durable and stylish but also environmentally friendly.

Our mission is to promote the use of bamboo as a sustainable and renewable resource, and to help create a better future for our planet.

Dimension : 1200 MM x 600 MM

Thickness: 2.5 - 3 MM

Shading: Roman Beige

INSTALLATION:

Liquid Nail

APPLICATION:

Wall & Ceiling

WHY CHOOSE FLEXISTONE

FLEXISTONE

Real thinly sliced
stone with flexible
backing

Natural stone look
and texture

Very durable and
weather-resistant;
it can be used
outdoors

More Expensive,
due to real stone
material

vs

PU STONE

Made from
polyurethane
(synthetic)
material

Mimics stone but
lacks authentic
texture

Durable, but may
not be as long-
lasting as stone

More affordable,
synthetic material

BAMBOO FIBER BOARD

A bamboo fiber board is an eco-friendly, durable panel made from processed bamboo fibers, PVC and stone powder, widely used in construction, furniture, and interior design.

In partnership with **Modern Bamboo®**

AIR PURIFICATION

Bamboo charcoal is porous and can absorb odors, moisture, and harmful chemicals like formaldehyde.

ECO-FRIENDLY & SUSTAINABLE

Bamboo is a sustainable material that has a lower carbon footprint compared to timber products.

ANTIBACTERIAL

Bamboo charcoal is naturally resistant to bacteria and mold growth.

MOISTURE REGULATION

Helps maintain humidity levels by absorbing or releasing moisture.

THERMAL INSULATION

Provides some degree of insulation due to its carbon structure.

DURABLE & LIGHTWEIGHT

Lightweight compared to hardwood panels and more durable than traditional particleboard or MDF, due to the dense structure of bamboo fibers.

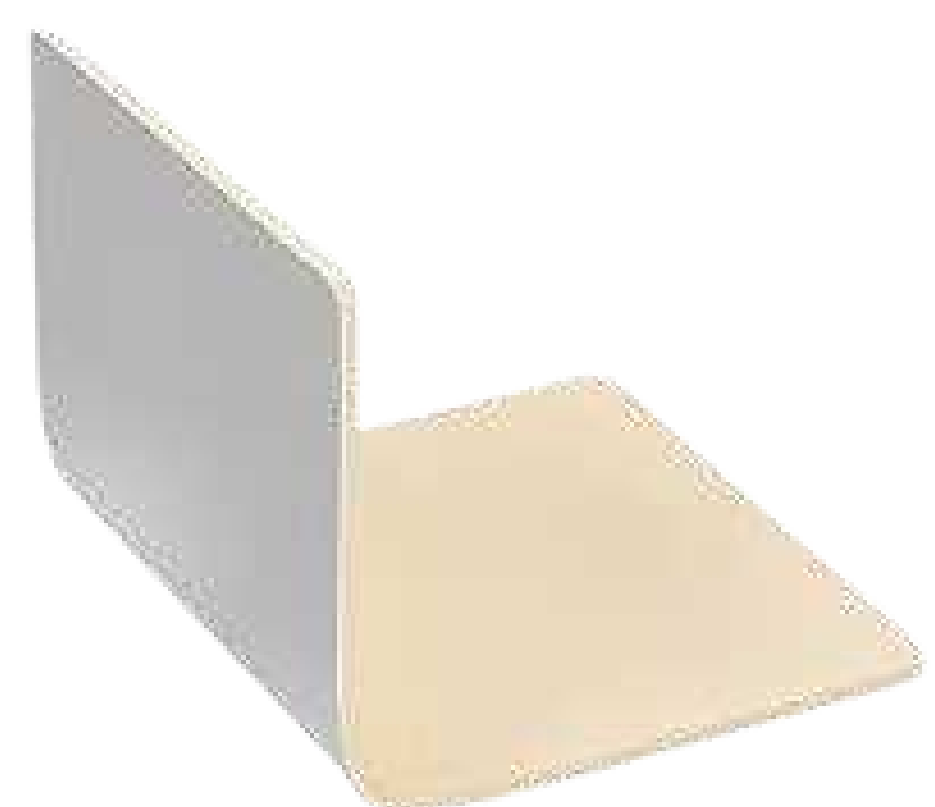

DID YOU KNOW?

Bamboo Fiber Boards can be *bent or curved* during installation, allowing them to easily adapt to walls and other surfaces. This flexibility makes them perfect for creating custom designs and unique architectural features.

APPLICATION:
Walls, furniture
& ceiling

INSTALLATION:
Gluedown or nailedown
on flat surface

1

curved surface

2

ALUMINUM ACCESSORIES

Inner Profile

L Corner

J Profile

H Profile
w/ Light Channel

Outer Profile

H Profile

Precision-engineered trims and profiles designed to provide clean edges, seamless transitions, and a professional finish for panel installations.

L Corner

Covers and protects bamboo board edges, providing a neat, durable finish and added strength.

LENGTH: 3 meters
PRICE: ₱250/piece

J Profile

Used for edging open ends of bamboo boards, providing a clean, sleek finish with a smooth transition.

LENGTH: 3 meters
PRICE: ₱160/piece

Outer Profile

Aluminum trim for finishing and protecting external panel corners, providing clean lines and enhanced durability.

LENGTH: 3 meters
PRICE: ₱250/piece

H Profile w/ Light Channel

Designed to join bamboo boards and features a channel for strip lights, creating a seamless connection with an illuminated effect.

LENGTH: 3 meters
PRICE: ₱450/piece

H Profile

Designed to join bamboo boards for a seamless, stable connection, ensuring a smooth, polished look.

LENGTH: 3 meters
PRICE: ₱160/piece

Inner Profile

Specialized accesory used to create smooth transitions at internal junctions, ensuring a secure fit.

LENGTH: 3 meters
PRICE: ₱250/piece

Why Choose

BAMBOO FIBER BOARD

In partnership with **Modern Bamboo®**

	BAMBOO FIBER BOARD	VS	UV Board
MATERIAL	Processed bamboo fibers and adhesives		Typically made of MDF or PVC coated with UV-cured paint
ECO-FRIENDLY	Highly sustainable, bamboo is a renewable resource		Less eco-friendly, due to PVC or synthetic materials
VOC ABSORPTION	Can absorb toxic chemicals like VOCs, contributing to better indoor air quality		Does not absorb VOCs in the air
MAINTENANCE	Easy to scrub and requires low maintenance		Can be susceptible to scratches and dents

FLEXIBLE

EASY TO
INSTALL

SOUND
ABSORPTION

EASY
TO CLEAN

ECO-
FRIENDLY

FLEXIOAK

Flexible Oak Panels, Endless Possibilities

WHAT IS **FLEXIOAK**?

Premium slat panels featuring a natural oak veneer on a flexible MDF backing—engineered for effortless installation on flat, curved, or angled surfaces. Perfect for enhancing any interior space with style and simplicity.

Panel Dimensions:

2440 x 1220 x 12mm

Finish:

Natural Oak Veneer

Flexibility:

Easily conforms to a wide range of interior design styles and surfaces

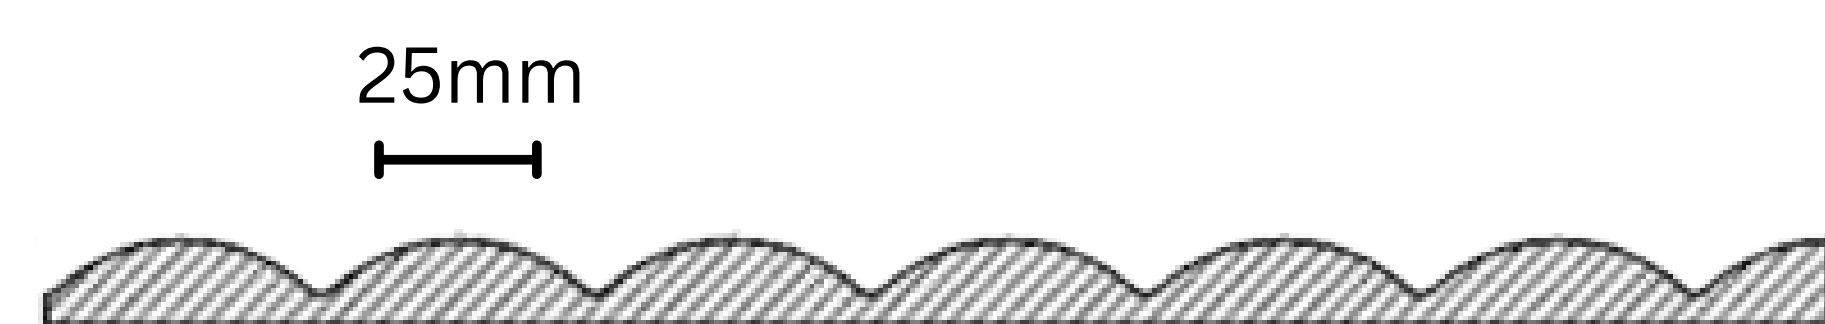

Application:

Ideal for walls, cabinets, ceilings, and more

Standard Grade:

E1/CARB P2

**Curved Out
25mm**
